remove the internet cafe; WIFI in street

convert Rockey-Raleigh Street into a hotspot (wi-fi)

my challenge was to spatialise
a wireless street.

3

I responded by providing extreme facilities (not merely for the sake of being 'extreme', but because the internet - which may be described as a separate, parallel 'universe' which we have created / uncovered - is a space where we, as people, unleash our alter egos, as we do in theme parks / when under the influence. This observation may be validated by the presence of dating sites and especially by the hyper-personas which interact in these realms) which would serve the Yeoville/Bellvue residents.
